BERNARD RICHARDS

Having grown up in a family of clockmakers, it was only natural that Bernard Richards would study at the Horology and micro mechanics Schools of Paris, and in his turn be struck by the love of traditional clock and watch making.

In the early 2000's, this knowledge enabled him to create his own watch : the GP-44, a unique model reflecting his passion for motorsports and especially for car racing.

This watch was an immediate success with customers and, in 2003, Bernard Richards decided to set up BRM Bernard Richards Manufacture.

This master, as some aficionados like to call him, never draws watches. Unlike other watchmakers, this enthusiast creates prototypes directly in his atelier.

Bernard Richards never ceases to exceed ordinary standards and, today, he has succeeded in propelling his brand into the elite world of luxury watchmaking.

SINCE 1955, CORUM HAS ADOPTED CREATIVITY AND BOLDNESS AS ITS GUIDING PRINCIPLES

Acknowledged both for the aesthetic appeal of its models and for its technical excellence, CORUM is proud to contribute to perpetuating the time-honored values and expertise of Fine Watchmaking.

Since 1955, CORUM has adopted creativity and boldness as its guiding principles. It is pursuing the path traced by the founders, more loyal than ever to the iconic collections, while enriching them with a powerful modern touch bearing the hallmark of innovation and technical breakthroughs. The continuity and the longevity of its collections are not mere words at Corum: the Admiral has been sailing the oceans for 60 years, while the Bridges collection has been making its mark on watchmaking history for over 40 years. History is definitely in the making at Corum.
